

We have some exciting information to share with you this month. First, we will detail how to get involved and submit your work to the magazine. Then, we will introduce an upcoming interdisciplinary event.

## The Spring 2025 Edition of the SBU Graduate Magazine: The Four Seasons

The theme of our upcoming magazine is The Four Seasons. We are hoping to highlight the intersection of writing and nature. Like the vibrant shifts of each season, art and science bring fresh perspectives that enrich our academic journey. Taking inspiration from Antonio Vivaldi's composition, *The Four Seasons*, we plan to represent the seasons through writing and art. More information regarding the theme is available on our website.

Maybe you have heard about *The SBU Graduate Arts & Sciences Magazine* but you're wondering how to get your work published in the magazine. Work can include research articles, essays, as well as general Stony Brook activities or events. The process starts small. If you are submitting an article, the first requirement is an abstract. Once this abstract has been submitted, our team of editors will work directly with you. The editors ensure continuity and style across the whole magazine. You can write a longer article (4 pages) or a shorter article (2 pages). Please contact us with any questions.

**The deadline for abstract submission is November 15th.** The link for submission is attached here: [tinyurl.com/GradMag2024](https://tinyurl.com/GradMag2024).

## BRIDGES: A Cross-Departmental Graduate Student Conference

As part of our efforts to foster collaboration and communication across disciplines, we are excited to announce that we are hosting "BRIDGES: A Cross-Departmental Graduate Student Conference." Scheduled for January 30th, our event will feature graduate student participants from various departments, each presenting posters on their research. During the conference, we will be promoting cross-departmental connections, highlighting current research efforts at Stony Brook, and enhancing students' ability to present their work in a way that is accessible to scholars from different fields. There will be keynote speakers in addition to the poster session.

Our team has been hard at work planning this event. BRIDGES is featured here on our website - [sbugradmag.com/bridges](https://sbugradmag.com/bridges). You are able to submit a poster and RSVP right on our website.

We plan to incorporate judges from multiple departments to award the top poster presentations based on scoring rubrics. Those recognized as winners will have the opportunity to publish their work in the upcoming edition of the magazine.

## Professor of the Month

In each edition of our magazine we present a "Professor of the Month". This title is chosen by your nominations.

If you would like to highlight your advisor or a professor you admire, please submit their name and email to the forum below.

Is your professor doing groundbreaking research?

Is your advisor a great mentor?

Let us know!

**We want to hear from you about your favorite professor.**

We will reach out to a nominated professor and interview them regarding their research and student collaborators.
